

Issue #	Status	Page	Label	Issue	Recommendation
1	WIP	Individual Recipe	Leave a Review	There's only one "Leave a Review" button on a blog post and it's at the bottom of the page	Add a "Leave a Review" button in the top section in the "Jump to Recipe" section
2	WIP	Individual Recipe	Review Highlight	There's no callout to a great review for a recipe	Add a quote review for a recipe to break up the wordy blog post
3	WIP	Individual Recipe	Tips Box	There's no easy way to see tips on a blog post	Add a tips box outlining tips bullets points to break up the wordy blog post
4	Done	Home	Footer banner	There's no callout to the cooking challenge that's noticable (there's text in the footer but that's all)	Swap out the Travel guide and Photography images with just one image displaying the cooking challenge
5	WIP	Home	Signup	The signup could be more pronounced.	Make this section into a signup pop-up instead of taking up space on the homepage
6	Done	Home	Page Section	Reader Favorites section extends the whole page compared to every other section	Make sure this is consistent with the other sections in that there are only 4 recipes extending horizontally
7	Might Do	Recipe Pages	Filter	Recipes pages don't have any other filter options so people would just have to click and scroll through pages and pages of recipes	Could be beneficial to add even more filters to each recipe page. Ex: If someone wants breakfast but they also want it to be sweet and also dairy free. Include the checkbox filters on all recipe pages.
8	Bug	Recipes by Course	Bug	(Recipes > Recipes by Course) but once clicked, causes the words to disappear when you hover over Recipes again	Bug, see screen shot to the right. I think it does this throughout the site?
9	Done	Individual Recipe	Serving Size	There isn't any way to see how to change the serving size. Ex: instead of 20 cookies, if someone wants to make 15)	Add in an option to edit the serving size (editable arrows to adjust serving size) which would then update the ingredients quantity, etc. (adjust/add arrows)
10	Might Do	Search	Searching	When searching a keyword and clicking a category (Dinner), there is no way to add other filter criteria other than the one chosen	Ensure if a keyword is under multiple categories that the user can select multiple/applicable categories to the key word search. Multi-selecting or checking those filter checkboxes to make it even more of a customizable search experience.
11	Done	Email Popup	Email Popup	No real popup about signing up for emails	Play around with email popups showing up after a certain amount of time on the site (test for desktop only?)
